Mapleton 100

Experience Better Living

Stoves

Bring the charm of a real wood burner into your home without the hassle. The Mapleton electric stove combines a timeless cast iron and steel design with cutting-edge Optimyst technology for the most authentic flame experience. Its freestanding design makes it versatile and flexible to place anywhere in your home, while the 3-sided glass panels ensure a panoramic view of the realistic logs and flickering flames, enhanced by a gentle crackling sound for a truly immersive experience.

An opening door adds to the traditional stove feel, while convenient remote or manual controls let you adjust the fire with ease. Practical as well as stylish, the Mapleton delivers up to 2kW of heat and includes a handy log store to complete the look. For added authenticity, an optional flue collar allows you to attach a decorative flue pipe, creating the perfect centrepiece for your living space.

- **Patented Optimyst technology** - creates ultra-realistic flames using water vapour and light, for a truly lifelike fire experience.
- **3-Sided viewing** - enjoy a unique panoramic view of the flames and lifelike log bed logs through three sides of glass, creating an immersive fire experience from every angle.
- **Easy refill** - the discreet water tank is accessed by the opening door and provides 8-10 hours of continuous flame and smoke effect before refilling is required.
- **Freestanding flexibility** - the Mapleton's freestanding design makes it versatile and easy to position anywhere in your home, giving you maximum flexibility without compromising style.
- **Mapleton 80 model** - a compact version ideal for inglenooks or freestanding installations, offering the same stunning flame effect without a log store.
- **Optional flue collar** - available separately, the flue collar allows you to fit a decorative flue pipe for added authenticity and a classic stove look.

Optimyst flame technology.
This unique flame effect is generated by an innovative combination of water vapour and light
